DP1400 series intelligent 6-way charger

This product is designed to automatically charge up to six units simultaneously. The charger is free standing or can be wall mounted.

The charger is smart and will analyse the condition of each battery and charge it accordingly, automatically stopping when it is full. This protects the battery from being overcharged, maintaining its health and longevity.

Technical Specifications	
Compatibility	NiMH & Li-ion batteries
Compatible Models	DP1400 series
Volume (cm)	29 x 19 x 9
Weight	1.5kg
AC adapter	6A
AC adapter volume (cm)	14 x 6 x 3.5
AC adapter weight	0.26kg
Packaging Dimensions (cm)	41 x 20.5 x 10.6
Input voltage: 110V-240V, Output voltage 12V Single-slot charging: pre=charge/constant current about 600mAh, constant voltage 8.4V \pm 1%.	

LED Charging Indicator

	Red light flashing: No battery present or the battery is damaged.
	Yellow light: The battery is low voltage and will be trickle charged.
	Red light: Once the voltage reaches 6.5V, normal battery charging will begin.
	Green light flashing: The battery has reached a charge of 98%.
	Green light: The battery charge is complete.
